Prestigio™ SOLUTIONS

75" Multiboard Light
PMB000L754

MULTIBOARD LIGHT – a new family of interactive whiteboards, which helps users to create their own solutions to meet their specific needs.

■ UNRIVALED IMAGE QUALITY

The UHD 4K resolution delivers stunningly deep, true-to-life images. The screen also have special light sensors, which, together with the high display brightness and contrast, make it possible to use the devices even in bright sunlight.

■ MULTITOUCH

The device's touchscreen is the best in its class and supports 20 touch points and 10 simultaneous writing points, including a feature that allows users to write in two different colors at the same time.

■ UNLIMITED CONNECTIVITY

The Prestigio Multiboard Light has multiple ports for connecting additional devices, computer peripherals, and USB drives. Notably, some of the ports (including USB Type-C) are located on the front panel, letting users connect or charge any types of devices they might need for presentations or video conferences with maximum ease.

■ THE ABILITY TO CREATE SOLUTIONS FOR YOUR OWN NEEDS

It is possible to additionally link an embedded PC based on a powerful 10th Gen Intel® processor with a preinstalled Prestigio Multiboard application package for business and education, including the mozaBook Classroom SW with a free license for a whole year. In addition, installing a licensed Windows OS on an additional PC will open even more opportunities for study or work.

MULTIBOARD LIGHT 75"

Multiboard Light – a new family of interactive whiteboards, which helps users to create their own solutions to meet their specific needs.

Devices from the new Multiboard Light family brings together all of the basic interactive functions for presentations, collaboration, and wireless communication. They will become the core of smart meeting rooms or special classrooms for interactive and even remote learning.
